

Esri Canada Visitor Parking at 12 Concorde Place

Parking Information

Esri Canada is pleased to offer **FREE OUTDOOR** parking for visitors to our site, however, there are only 10 spaces available on a **first come, first serve basis**. Visitor parking is located behind our building via the driveway designated for SHIPPING, to the right of 12 Concorde Place main circular driveway.

To enter 12 Concorde after you have parked, walk through the covered parking area (P3 level) and take the elevator up to the lobby (P2 level) or take the stairs one flight to the lobby and the elevators.

If visitor parking is full, there are a limited number of "Pay & Display" spots beside our designated lots or an alternative "pay & display" outdoor lot is just south of the main driveway off Concorde Gate. Pay Parking is \$12.50 for the day.

Please note, anyone parking in the free area, must provide their license number to our receptionist upon check-in. As the lot is monitored throughout the day, providing your license plate will identify you as our guest – otherwise your car could be tagged and potentially towed.

Esri Canada's reception is on the 9th floor.

***PLEASE NOTE: Esri Canada is not responsible for cars that are parked in non-Esri Canada designated spaces. Failure to pay for parking in the visitor parking lot will result in your vehicle being tagged and/or towed. Esri Canada is not responsible for costs incurred for parking in non-Esri Canada designated spaces.**
